Marathon's Pak'ntainer® (MPT)

Available in 3, 4, 5, and 6 Cubic Yard
Front-Load and 6 Cubic Yard Rear-
Load Models

Ideally suited for weekly
volumes of less than 120 cubic
yards (92 cubic meters) of
uncompacted wet or dry/general
waste materials

Marathon's Pak'ntainer is a portable and economical self-contained compactor/container with remote power pack.

It's designed for compacting and containing wet or dry waste and simplifying waste dumping.

The Pak'ntainer helps maintain a sanitary environment, while saving money, for those generating as little as 20 cubic yards of refuse a week. Place the Pak'ntainer wherever needed, whenever needed — temporarily or permanently — no anchoring, no concrete pad, no special surfaces required. It can be used alone or to "fill the gap" in combination with other units.

The container is tapered to achieve superior compaction ratios and aid waste ejection, which eliminates excessive wear and tear on collection trucks. Liquid-tight construction helps ensure a sanitary environment. The drain enables water to be removed, lowering disposal costs.

Features and Benefits:

- ▼ Large 46 x 22.5 inch (1168 x 571mm) clear top opening handles even large, bulky items.
- ▼ CYCON Control System (for use with 3-phase only) eliminates all pressure and limit switches dramatically improves cold weather performance, and reduces maintenance costs and down time.
- ▼ Fixed breaker-bar teeth help keep materials in container and charge box clear.
- ▼ Hydraulic plumbing to both sides with quick-release disconnects for added versatility in any application.
- ▼ Tri-voltage standard for easy conversion to 208-, 230-, or 460-volt power.
- ▼ Single-phase 110 with 3/4 hp motor available at no additional charge.
- ▼ Heavy-duty hinges for durability.
- ▼ Lockable panel box to increase security.

This 6 cubic yard Pak'ntainer is a rear-load model.

Options:

- ▼ Hopper enclosures
- ▼ Security chute
- ▼ 90-gallon cart dumpers
- ▼ Ozone generator

Easy-to-operate latch — saves on time and maintenance.

Pak'ntainer with optional hopper and plastic lids to keep contents in, rain out.

Pak'ntainer is designed for compatibility with a wide variety of collection vehicles.
